Burch PrimeTime Spring #1010097 fabric

## Full Featured, Commercial Grade

All panels feature strong, stress-skin core construction, resulting in lightweight durability that passes rigid industry standards. Overhead shelves and flipper-door cabinets are constructed with 100% metal materials and fully supported by panels when loaded. The entire system is UL Listed, requiring rigorous testing. In addition, the electrical system is UL Registered, a separate component standard.

Panels are fabricated to order at our California and New Jersey facilities. Special requests are accommodated whenever possible; contact your project manager with any special requests.

**Panel Heights:** 85", 67", 53" & 39"

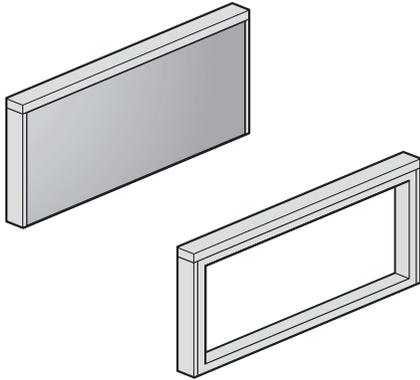

**Panel Widths:** 24", 30", 36", 42" & 48"

**Worksurfaces:** 15 sizes of stock laminates;  
any size/shape in custom laminates

Frameless clear and frosted glass can be mounted to the top of a panel for an alternative aesthetic.

Segmented panel design provides you with the design freedom to create one-of-a-kind aesthetics. Our 14”H segments are available in framed/clear glass and in any fabric.

Panels can be constructed with segments single-stacked, double-stacked or combined for a myriad of possibilities. Each segment attaches with a metal panel/segment joiner in matching paint finish. Together, this creates the appearance of a frame-and-tile system in a contemporary, thin-profile design and at substantial savings.

Single-segment panels are available 53”H or 67”H. Double-segmented panels are available 67”H or 85”H.
